Thank you for inquiring about submitting your music for airplay consideration.

To answer your concern, we do support local artists at Power 88. We currently have three local artists in rotation and have had others in the past. We are the only station who's supporting local artists and playing them in regular prime time rotation.

There are no tricks, gimmicks or politics involved, just great music that fit's our format. You can submit your music to us and select one song for us to listen to. We have a listening session in our music department every Thursday @ 1:30pm. The test is....can the song be sandwiched between National Hits and not make our listeners switch to another station. Also, the song MUST be of professional sound quality, with out any offensive lyrics, profanity, violence, nor racial overtones. We do not tolerate the use of the "N" word nor the "B" word. I mention this because we've already had some artists who expressed the same concerns you have only to submit music that was just unacceptable. So do we play local artists? YES! Do we play local artists just because they're local without restrictions? Absolutely not!

We receive a lot of material and only ask that you have patience with our process. If you have not done so, you can submit your music to:

KCEP Power 88.1
Attn: Music Dept
330 W. Washington Avenue,
Las Vegas, NV. 89106

I hope I was able to satisfy your curiosity.

Thank you,

A handwritten signature in black ink that reads "Craig Knight". The signature is stylized and cursive.
